Tracy
He proposed larger equipment, but the permit is conditioned to allow 5" 15hp.

Thanks, Aaron.

Do you know if Mr. Smith plans to operate a 5-inch dredge instead of the 8-inch dredge mentioned in his Joint Application? There is a line in Block 16 implying he can operate larger than a 5-inch dredge because of his lease.

Attached is a copy of Stream Channel Alteration Permit S79-20035 for your records. Project activities include operating a suction dredge on the Salmon River to prospect for gold. Please let me know if you have any questions.
